

Soda Hunt

Disrupt Advertising One Hunt at a Time.

Say goodbye to your Google Ads and other means of useless traffic.

Now, say hello to Soda Hunt - where real, organic traffic is at your fingertips through gamification.

WHAT IS SODA HUNT?

Soda Hunt is a digital treasure hunt.

PLAYERS register as **HUNTERS**.

BUSINESSES register as **TERRITORIES**.

Hunters search **territories** for a clue to the next **territory**.

The first **Hunter** to finish the game wins the grand prize!

Expose your business to thousands of shoppers – real and verified people – who hunt every page of your website for prizes and, in doing so, become more familiar with your offerings than your regular shoppers. Alpha testing shows that each hunter may spend 3-hours or more hunting a single website searching paragraphs, products, photos, forms and whatever is there within your territory.

WHAT IS GAMIFICATION?

Boosting engagement with a product or service by applying game elements (scoring points, competing with other players, and game rules) is known as gamification.

Who uses gamification?

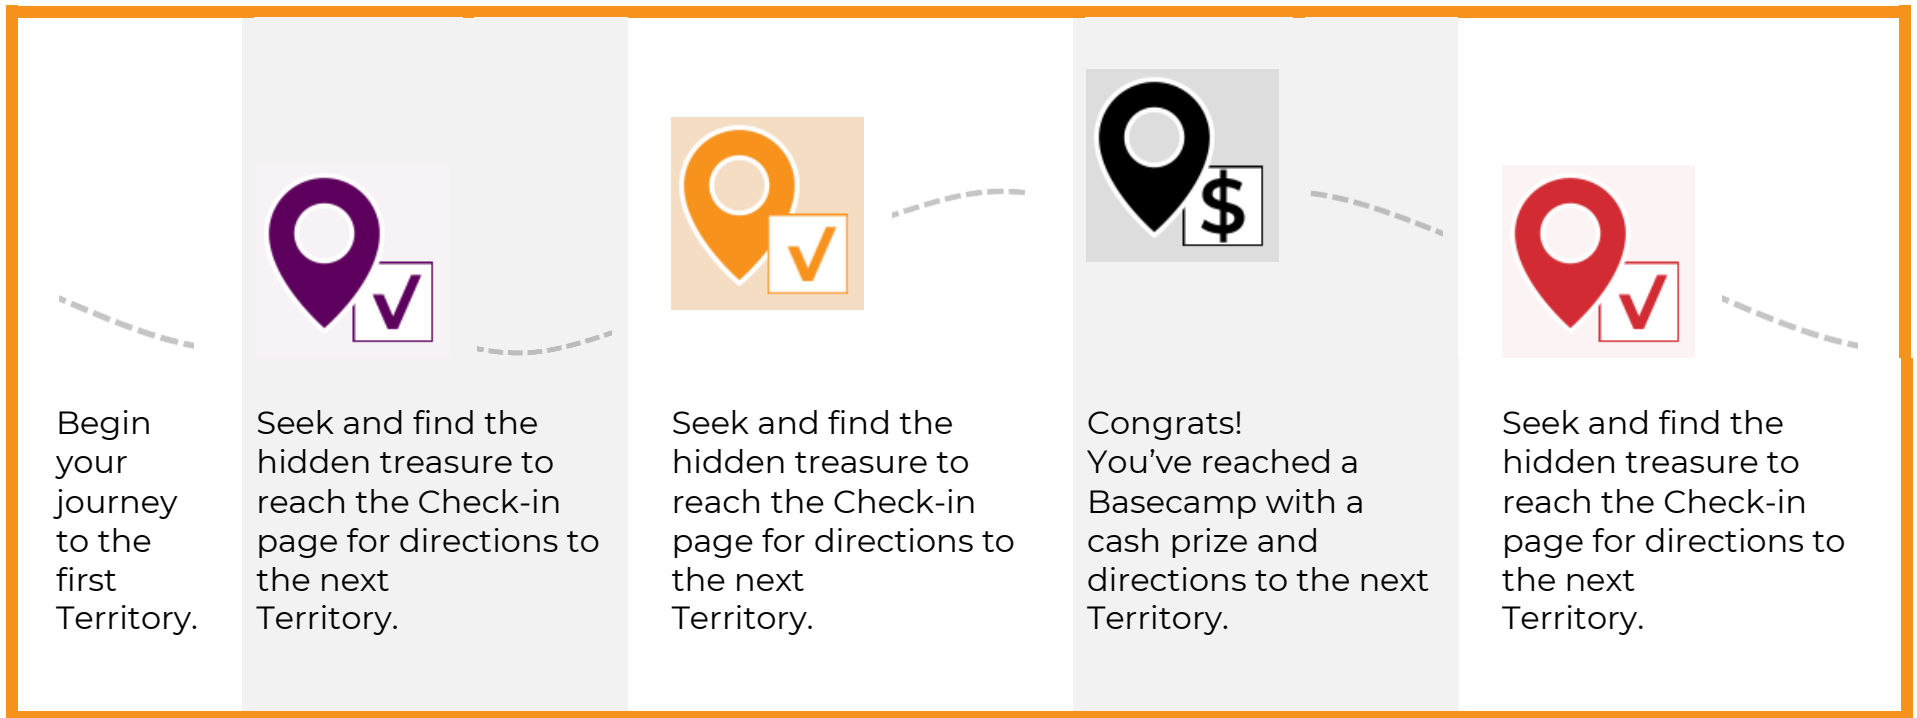

- 50% of startups in the United States
- 70% of Global 2000* companies

**Companies with a market value of \$7.6 billion or more.*

GAME PLAY

Soda Hunt is chock-full of goodies:

- Skill levels from simple to super-difficult;
- Various terrain treks including mountains, tropics, desert, ocean, and arctic; and

Hunters access Check-in pages by clicking on the hidden egg in any Territory. Each page contains:

- An exclusive offer for the Hunter from that Territory;
- A Check-in form that must be completed to go to the next Territory; and
- A Soda Hunt survey question for the hunter to answer.
